

## BY AUTHORITY.

The Board of Officers appointed to examine into and report upon the proposed modification of the existing harbor lines at Honolulu will be at the Depot Quartermaster's office, Honolulu, from Monday, March 12, to Friday, March 16, inclusive, between the hours of 2 and 4 p. m. All interested in the proposed change of the harbor lines are invited to give to the Board, either orally or in writing, their views regarding the same.

ALEX. YOUNG,  
Minister of the Interior.

## REGULATIONS FOR SHIPMENT OF FREIGHT.

Office of the Board of Health, Honolulu, H. I., March 10, 1900.

Shipments of goods to the other islands may be made under the following conditions and restrictions:

1. The "Kinai" and I. I. S. N. Company wharves shall be kept as quarantine wharves.

2. Goods of American and English production or manufacture may be shipped if in original unbroken and tight wood or metal containers, said containers to be subjected to disinfection by acid solution at said wharves.

3. Goods of American and English production or manufacture in original packages, or in re-packed containers, providing such containers have openings left equal to one-eighth the surface, may be taken to the P. M. S. S. dock for fumigation by sulphur for twelve hours.

4. Machinery and corrugated iron, after acid disinfection.

5. Coin, which must have been boiled, after acid disinfection of container.

6. Rice, if prepared direct from paddy under supervision of an agent of the Board of Health at Hopper's rice mill, packed in new sacks and delivered in covered drays direct to the wharf, without further treatment.

7. Flour, feed, fodder, fresh vegetables and fruits from new quarantined wharf, or from clean vessels in the harbor, only.

8. Coal, in bulk or bags, brick, lime, cement, fire clay, and acid fertilizers without treatment.

9. Lumber, to be thoroughly wet with salt water at the vessel, and in all cases to be discharged into the water at point of destination.

10. A charge for disinfecting and fumigating as indicated may be made by the transportation companies.

11. No responsibility is assumed for damage arising in connection with treatment of goods.

12. Goods of such nature that damage would likely be sustained, from either of the methods mentioned, may be shipped without further treatment, provided they are kept in the hot air plant at a temperature of 230 degrees F. for one hour, and a certificate to that effect accompany the goods; transfer to be made on covered drays to wharf.

C. B. WOOD,  
5490 President Board of Health.

J. A. GILMAN,  
Secretary H. R. T. & L. Co.  
Honolulu, March 1, 1900. 5481

## ONE CASE YESTERDAY.

(Continued from page 1.)

even under suspicion. Besides the Chinese stables, this lot contains ten or a dozen smaller buildings, among which is a good sized building evidently a lodging house; upwards of a hundred persons live in these structures. The stables adjoining the house where Ah Jan lived, on the left-hand side of the Iwilei road, are directly opposite the stables on the right-hand side of the road which were put under guard last night. Both places are now in strict quarantine, nobody being allowed in or out at either establishment. People from the two localities have been in the habit of passing to and fro, and persons sleeping on one side of the road, in some cases, were employed on the other.

The place on the right-hand side of the road has a rather unsavory reputation; a number of Japanese prostitutes have frequented the place and a man whose business takes him often in that vicinity reports that white men were in the habit of going to the place. Gambling is a portion of all nationalities live there and the hacks quartered in these stables are for the most part driven by Chinamen, whose occupation naturally takes them all over town.

A hack is missing from the stables on the left-hand side of the road. No. 34 was taken from those stables at an early hour yesterday morning, before the Ah Jan case was discovered, and its driver has not yet returned, although he left word when he took his departure that he would be back in the afternoon. The police are looking for No. 34 and think it is likely that the driver has been warned of the quarantine and is attempting to evade being held. Four hacks are now in the stables just mentioned and ten horses are also sheltered there. From the premises across the road several persons, horses and hacks are missing; but it is expected that they will very quickly be apprehended by the police.

## Saturdays Board Meeting.

On Saturday afternoon at 3 o'clock the Board of Health held its regular daily meeting, the following being present: President Wood, Dr. Emerson, Messrs. Lowrey and Smith.

Dr. Wood announced after the reading of the minutes of the previous meeting that he had appointed Dr. Pratt to act as sanitary inspector of buildings. The President thought that Dr. Pratt should be commissioned as a sanitary officer of the Board, as his position was really more executive than that of an ordinary inspector, and that he should be clothed with the necessary authority required to take the matter of violations of the Board's regulations into the courts; and that it would be a good plan to have Dr. Pratt's duties definitely defined by the Board. The Board approved the President's action.

Dr. Wood also announced that Dr. Camp had been assigned as assistant in the bacteriological department to Dr. Hoffmann, on the latter gentleman's recommendation.

## Letter From Wailuku.

The following communication from C. B. Wells, Wailuku, was brought to the attention of the Board:

Wailuku, Maui, March 9, 1900.  
Dr. C. B. Wood, President Board of Health, Honolulu.

Dear Sir: Have just returned from Kahului, where I met Dr. Weddick, and he requested me to try and get a letter to you by this mail, asking you to temporarily appoint Dr. Winslow of Kihai as Government physician at Wailuku, as he, Dr. Weddick, is not able to attend the outside Government work.

In haste, yours truly, C. B. WELLS.

It was the unanimous decision of the Board that Dr. Winslow be appointed Government physician ad interim at Wailuku.

Following the above matter, Dr. Wood read communications from Kahului and Hana.

## Dr. Garvin's Report.

The Kahului situation is summed up in Dr. Garvin's letter, as follows:

Kahului, March 9, 1900.  
Dr. C. B. Wood, President Board of Health.

Dear Sir: Your letter and instructions received yesterday. I at once started the work of building the rat-proof fence. This morning I called a meeting of the Sanitary Committee and made all necessary arrangements for completing the work. I think by Sunday night all the fences will be complete. Today I have arranged to move nearly three-quarters of the population into the detention camp. A few of the white families will be put in cottages now under construction at the camp and will be ready in two or three days.

After some deliberation I decided to use corrugated iron for the rat-proof fence. It will cost about one-third more than wood, but we have arranged to use the iron without punching holes in it, so there will be no trouble in selling it back to the plantations at about first cost. By using the lines of fences now standing we can save hundreds of posts and it will cost scarcely anything except for labor. The sheets of iron are placed vertically, being sunk into the ground about fifteen inches, and the edges overlapping, which gives a fence that is, I think, absolutely rat-proof.

The new cottages we are building will no doubt be available for laborers' quarters and Mr. Baldwin tells me that he is quite sure the plantations will be willing to take them at a reasonable price after the Government is through with them. The campaign against rats will begin just as soon as the fence is completed.

All traffic through the town has been stopped for some time. The inspectors at Wailuku are keeping up a careful canvass and are making a new census, to include the people we recently released from the camp. I see by the papers that the Maui mail has been re-fumigated at Honolulu; this seems to me unnecessary, for I have given special care to the matter and

feel certain that all mail matter leaving here is well fumigated for a period of from four to six hours.

The general health is good and there are no cases of sickness in either the camp or town. The Chinese freight on board the steamer Cleveland will be taken back to San Francisco, but the steamer is loading with sugar at Kihai. The greatest problem we have to meet is the feeding of the quarantined people. But for the splendid co-operation of H. P. Baldwin, matters would move very slowly at times, and we appreciate the situation readily and act without hesitation. The loading of the Centennial with sugar was carried out in a satisfactory manner and I think it will meet the approval of the United States authorities. It is desirable to fumigate the mails with formaldehyde, a supply must be sent over, for there is none obtainable here. Thanking you for kind assurances, etc., I remain, respectfully,

C. L. GARVIN.

P. S.—Another dead rat was found near the warehouse this morning but have not had time to examine it yet.

Lahaina, Maui, March 7, 1900.  
Dr. C. B. Wood, President Board of Health, Honolulu.

Dear Sir: There have been no deaths and no suspicious cases since February 25th.

Respectfully yours,  
DR. GARVIN.  
Per DUNN.

## Hana Heard From.

Next in his file of correspondence Dr. Wood took up the following:

Hana, Maui, March 5, 1900.

Dr. C. B. Wood, President Board of Health, Honolulu, H. I.

Dear Sir: At a meeting of the agents of the Board of Health of the district of Hana, Maui, consisting of Dr. R. J. McGettigan, K. S. Gjerdrum and F. Wittrock, held February 21, it was decided to organize a local Health Board to act for the good of the district of Hana.

Dr. McGettigan was elected chairman and Hugh Howell was appointed secretary.

Much valuable work has been done already by the several agents above mentioned, individually, who received the unanimous support of the Hana Citizens' Sanitary Committee at a mass meeting held February 11, but, owing to the almost utter isolation of this district from the remainder of Maui, from its geographical position, lack of roads and infrequent steamer communication, it was deemed necessary, in order to carry on the work of sanitary reforms and of guarding the landings and roads, to act as an organized body with official recognition as such from the Board of Health in Honolulu.

Therefore, the undersigned hereby respectfully request of the Board of Health the following:

1. Official recognition as the Hana Health Board with full powers to act, to be governed of course by the existing regulations of the Board of Health.

2. Ratification of their acts already done, and under way, as follows: A—Establishment of stationary guards on all the roads at either end of the district and at other principal points inside, to prevent the influx of people or goods from the infected side of Maui.

B—Patrol guards between principal points throughout the district to prevent indiscriminate traveling and congregation of individuals. C—Restriction of all travel through the district except by passes. This causes no hardship, as responsible persons in each small settlement have been authorized to issue such passes. D—Inspection of all freight that comes to any port of the district by sea. E—Thorough sanitation of all camps, dwellings, stables, etc., in the district. This work is under way now, and the expense is borne by the property owners and tenants. A committee has charge of it and works without pay. F—House to house inspection.

3. The payment of a portion of the expenses incurred in the above mentioned work by the Board of Health. We have a standing committee out gathering subscriptions in the district, and present results indicate that we can pay about one-third of the amount per month. We ask that the Board pay two-thirds. Enclosed please find statement of expenses for the month of February, amounting to \$690.00.

If, as we have reason to hope by your statement to Dr. McGettigan by telephone from Kahului, the Board of Health will assist us in defraying such expenses, please send us some blank Board of Health vouchers by return mail so that we can present our bills in proper shape.

4. We also request the appointment of Mr. Hugh Howell as an additional agent of the Board of Health.

We wish it distinctly understood that the above requests are not made with any idea of acting or with the desire of acting, in opposition to the Board of Health, in whom we have the utmost confidence, but that, solely on account of our isolated position, we deem it desirable to have the power of independent action.

Yours very respectfully,  
The Hana Health Board  
R. J. McGETTIGAN, M.D.  
K. S. GJERDRUM.  
F. WITTROCK.

Hugh Howell, Secretary.

## Maui Sanitary Committee.

Next in order came the report of a meeting of the Maui Sanitary Committee. It is, in full, as follows:

At a meeting of the Sanitary Committee of Maui, held at the Custom House in Kahului, March 9th, the following members were present: Dr. Garvin, in the chair; D. C. Lindsay, S. M. Baldwin, Dr. Winslow, Dr. Weddick, C. B. Wells, H. P. Baldwin, W. J. Lowrie and J. L. W. Zumwalt.

The following resolutions were presented and passed:

Moved that we approve the resolutions passed by the Board of Health and proceed to carry them out to the best of our ability. Carried.

Moved that an executive committee of three be appointed by the chair to carry out the resolutions of the Board of Health. Carried.

According to the foregoing resolutions the following persons were appointed: H. P. Baldwin, W. J. Lowrie and C. B. Wells.

Moved that the question whether Mr. Wadsworth be allowed to take any-

thing out of Kahului be left to Dr. Garvin.

Moved that a record of all the acts done by the executive committee be kept by the secretary of the Sanitary Committee. Carried.

The executive committee visited the grounds and decided where to put the rat-proof fence.

J. L. W. ZUMWALT,  
Secretary.

Röntgen rays are proving their value in head surgery in South Africa. A fresh equipment of apparatus has been ordered and skilled operators are being sent to the front. The Marconi system of wireless telegraphy is being placed on three British vessels, which are intended for active service.

Don't take the next thing that the bar-tender offers—call for Jesse Moore "AA" Whiskey and see that you get it—you'll like it.

## MEETING NOTICE.

THE REGULAR MEETING OF the Catholic Benevolent Union will take place this (Monday) evening at 7:30 o'clock at the Catholic Mission. JOHANNES F. ECKARDT, Recording Secretary.

## ELECTION OF OFFICERS.

AT THE FIRST ANNUAL MEETING of the A. Harrison Mill Co., Ltd., held this day the following officers were elected for the ensuing year:

J. Sharp ..... President  
F. C. Belters ..... Vice President  
A. Harrison ..... Treasurer  
W. E. Burnett ..... Secretary  
B. Johanson ..... Auditor

These officers to constitute the Board of Directors.  
March 10, 1900.  
W. E. BURNETT,  
Secretary.
